M.D. BATTILERIVER COUNCIL MINUTES

The Council of the Municipal District of Battle River No. 423 met in the Municipal Office at Irma, Alta., on Tuesday, April 8th with Messrs. Burton, Challies, Smallwood, Vesey and Burrell present.

The minutes of March 13th were read and on motion of Mr. Challies were accepted as read. Cd.

Moved by Mr. Smallwood that the report of the reeve re the bank credit be accepted. Cd.

Moved by Mr. Smallwood that the Council receive the report of the Reeve re Mary McPhee, that Mrs. McPhee was not a resident of the Municipality on receipt of application for Old Age Pension and that the Secretary be instructed to notify the Department for Old Age Pensions to this effect. Cd.

Moved by Mr. Challies that the report from Messrs. Burton and Smallwood re the Seed Grain Indebtedness of this Municipality and with the Dept. of Municipal Affairs: Soldier Settlement Board: National Trust re McGillies and the Credit Foncier re J. Walker, and the S.W. 10-46-7-4th be accepted. Cd.

Moved by Mr. Challies that the Secretary prepare a list of the non-collectable Seed Grain Liens on land in this Municipality and forward same to the Debt Adjustment Board with a recommendation from this Council that same be cancelled. Cd.

By-Law No. 30 for authorizing a grant towards the guarantee for a Medical practitioner and payment therefor read.

Moved by Mr. Challies that By-Law No. 30 pass its third and final reading. For Smallwood, Burton, Challies and Burrell, against, Vesey. Cd.

Moved by Mr. Smallwood that By-Law No. 29 re a Temporary Road through the S.E. 35-45-7-4th be tabled until next meeting on account of the absence of Councillor King of Div. 1. Cd.

Moved by Mr. Vesey that the Council apply the amount of \$475.00 expenses occurred by the late N. J. McGillies as taxes on his property being the S.E. 16-45-8-4th according to Section 150 paragraph of the Municipal Act being Chapter 41 of the Statutes of Alberta 1926 and amendments. Cd.

Moved by Mr. Vesey that the amount of \$6.53 Taxes be cancelled against the S.W. 27-44-8-4th. Cd.

Moved by Mr. Burrell that the taxes to the amount of \$385.71 against the part of the S.E. 14-45-8-4th north of the Battle River be cancelled, land having reverted to the government. Cd.

Moved by Mr. Challies that R. H. Coutley be employed as Surveyor for this Municipality for 1930 and the Secretary be instructed to notify him that this Municipality would require his services immediately. Cd.

Moved by Mr. Smallwood that the proposed road leaving the north side of the N.W. 3-45-8-4th with arriving at the west side of the S.W. 3-45-8-4th be left entirely with the Council or that ward if deemed advisable to opening of said proposed road he must not spend more than his apportionate allowed for Public Works for 1930 for that Division. Cd.

Moved by Mr. Vesey that the Cemetery committee meet the Church board of the Roman Catholic Church with regards to the Irma Cemetery. Carried.

Moved by Mr. Vesey that the Municipal Rate be set at 9 mills. Mr. Smallwood moved an amendment to Mr. Vesey's motion that the Municipal Rate be set at 8 mills and that no rate be struck for Cemetery purposes for 1930. For the amendment, Mr. Smallwood, against, Burton, Challies, Vesey, and Burrell. Amendment lost. Motion carried by Messrs. Burton, Challies, Vesey and Burrell, for, and Smallwood against.

Moved by Mr. Challies that \$3 1-2 per cent. of the Municipal Current Tax Levy be set aside for Administration purposes. Cd.

Moved by Mr. Burrell that the following wage schedule be used for public works for 1930. Man and two horse team \$5.50 per day man and four horse team \$7.50 per day, Road foreman \$6.00 per day, grader man 4.50 per day, grader builder \$3.50 per day, other single men \$3.00 per day. Carried.

Moved by Mr. Burrell that Geo.

Rubenock be appointed Road foreman for Division 2. Cd.

Moved by Mr. Smallwood that P. Harvey and H. Kasten be appointed Road Foremen for Division 3. Cd.

Moved by Mr. Challies that W. Myers be appointed Road Foreman for Division 4. Cd.

Moved by Mr. Burton that Clark Steele be appointed Road Foreman for Division 5. Cd.

Moved by Mr. Smallwood that Glenholm S. D. rate be 16 1-2 mills, Silver Lane S. D. rate be 15 mills, Carriere S. D. rate be 15 1-2 mills.

Moved by Mr. Burrell that Lewisville S. D. rate be 16 1-2 mills, and Strawberry Plains S. D. rate be 9 mills. Cd.

Moved by Mr. Vesey that Ascut S. D. rate be 15 mills, Plaxlot S. D. rate be 15 1-4 mills, Battle Heights S. D. rate be 10 1-4 mills, and Peace S. D. rate be 15 mills. Cd.

Moved by Mr. Burton that the Crescent Hill S. D. rate be 16 1-2 mills, Roseberry S. D. rate be 9 1-8 mills; Alma Mater S. D. rate be 12 3-4 mills; Avonlea S. D. rate be 15 1-2 mills; Sunny Brae S. D. rate be 8 1-4 mills; and Fabyan S. D. rate be 11 1-8 mills. Cd.

Moved by Mr. Challies that the Ross S. D. rate be 11 1-4 mills; Education Point S. D. rate be 11 1-4 mills. Cd.

Letter read from the Glenholm S. D. re advance of one half year's requisition.

Moved by Mr. Smallwood that this Council grant the request of Glenholm S. D. in advancing one half year's requisition less the \$200.00 already received. Cd.

Moved by Mr. Smallwood that the Reeve and Treasurer sign the Bank of Montreal form L. F. 82 that Whereas the Council of the Municipality of Battle River deem necessary to borrow for the purpose of meeting the respective estimated expenditures of such School Districts;

Now, therefore, be it resolved by the Council of the Municipal District of Battle River No. 423 the 8th day of April, as follows:

The Reeve and Treasurer of the said Municipal District be and are hereby authorized to borrow from the Bank of Montreal the sum of Three Thousand Dollars (\$3,000.00) for school purposes. Cd.

Moved by Mr. Vesey that Whereas the Council of the Municipal District of Battle River No. 423 deem necessary to borrow for the purpose of meeting the respective estimate of Expenditure required by the Wainwright Municipal Hospital No. 10;

Now, therefore, be it resolved by the Council of the Municipal District of Battle River No. 423 the 8th day of April, 1930, as follows: that the Reeve and Treasurer of the said Municipal District be and are hereby authorized to borrow from the Bank of Montreal the sum of Four Hundred Dollars (\$400.00) for Hospital purposes. Cd.

Moved by Mr. Vesey that the Correspondence from the Wainwright Municipal Hospital No. 10, re agreement be tabled until next meeting. Carried.

Moved by Mr. Smallwood that the Secretary be instructed to write the St. Annes Hospital at Hardisty that the said Hospital accept the note in question instead of the Municipality. Carried.

Moved by Mr. Smallwood that the Application of Mrs. Ada Latch for Mothers' Allowance be disallowed and that the secretary forward the application to the Dept. under the Mothers Allowance Act. Cd.

Moved by Mr. Burrell that Mr. Smallwood be appointed inspector for the Mothers Allowance and Old Age Pensions. Cd.

Moved by Mr. Smallwood that the Secretary get estimates on the building of a cabinet in the N.W. corner of the Municipal office for keeping assessment rolls, etc. and a drawer in the bottom for Blue prints. Cd.

Moved by Mr. Vesey that the Secretary be instructed to send to the Dept. of Public Works application for Capital Grant for the amount of \$400.00 for Division 3; \$300.00 for Div. 4; and \$200.00 for Div. 6. Cd.

Moved by Mr. Smallwood that the following bills be passed and paid: W. A. Burton—Committee

work \$34.00
R. D. Smallwood—com. work 14.00
W. N. Frickleton re A. Walker 5.00

CHURCH NOTICES AND ACTIVITIES

IRMA UNITED CHURCH
Rev. John R. Geeson, M.A., B.D.,
Pastor

SUNDAY
Sunday School at 11 a.m.
Public Worship at 3 p.m.

Alternate Sundays
Albert School at 11 a.m.
Strawberry Plains at 11 a.m.
Alma Mater at 3 p.m.
Roseberry at 3 p.m.

Trail Rangers on Monday 7.30 p.m.
C. G. I. T. Tuesday 7.30 p.m.

Mid-week Service Wednesday 8 p.m.
Ladies Aid, 2nd and 4th Thursdays.

W. M. S., every third Thursday.

Next Sunday, being Easter Sunday, the services will be of special nature at Albert, Alma Mater and Irma.

The Sacrament of the Lord's Supper will be observed after the evening service. All those who decided for the Christian life, and who rededicated themselves in the special services last Fall are especially invited to this service. Any who wish to join the Church are earnestly invited to share in this sacrament and give their names to the pastor.

The Rev. H. Dobson, D.D., was with us last Tuesday evening and fully realized all expectations. The weather, though welcome, materially affected the attendance, but there was a fair number gathered to hear his stirring message. The next visit of Dr. Dobson will, no doubt, bring out a much larger number. He dealt with many important issues, but his remarks on Temperance, Gambling, and Family Life were timely. The whole address was summarized by the appeal to take Jesus seriously and to insure every aspect of life by His Spirit.

ANGELIC CHURCH
Service will be held on Sunday next, April 20th (Easter Day) in the Irma United Church at 9 p.m. There will be a celebration of Holy Communion at this service.

The W. A. will meet on Tuesday next, April 22nd, at the home of Mrs. Inkpen at 2.30 p.m. Everybody welcome.

The W. A. are holding a tea and sale of home cooking on Saturday next, April 19th. Over Nu-Way store.

NOTICE
The Irma Rebekah Lodge propose holding a sale of home cooking and serving lunch afternoon and night on Saturday, May 3rd.

NITRO CULTURE
FOR SWEET CLOVER

The Times has arranged with the School of Agriculture, Vermilion for a limited supply of Nitro Culture for treating Sweet Clover seed. All Sweet Clover sown on land that has not had clover on before should be treated with this culture. The treatment is very simple and the cost is only 35c for a bottle that will treat 60 lbs. of seed. Don't wait till you are ready to sow your seed before getting the culture, or let us know about when you will need it and we will arrange to have it here when needed. One farmer ordered 50 bottles and another 28 bottles this week, so if you leave it till the last minute and a few orders like this come in there may be a slight delay. Farmers wishing to order the culture direct can do so by sending the order accompanied by Postal Order or Money Order for the amount ordered, to the School of Agriculture, Vermilion, Alta., and it will be delivered postage paid.

A slight rain shower early Monday morning and a fairly heavy fall of snow on Tuesday night, added a note of cheerfulness to the general topic of conversation and predictions of much rain and a good crop this year were heard on all sides. So mote it be.

Calgary Power Co.—Elec. light 4.80
Richardson Road Mack, Div. 3 80.00
Irma Times Papers for March 18.00

Motion Carried.

Moved by Mr. Burrell that this Council adjourn to meet again on Tuesday, May the 20th at 10 A.M. Carried.

R. J. TATE, Sec-Treas
M. D. of Battle River No. 423.

DEATH OF THOMAS ROME

It was with great regret that the news was received of the demise of Thomas Rome of the Roseberry district. He was born in Dumfries, Scotland, forty-four years ago. He came out to Canada and lived for a number of years in Ontario.

He enlisted early in the days of the war and was attached to the 134th Highlanders and later drafted to the 15th Battalion. He was wounded at Vimy Ridge on April 9th, 1917. He has suffered from that wound ever since and finally was placed on the pension list in the latter part of last year.

He was taken ill with appendicitis and was removed to the University Hospital, Edmonton for operation.

This, of course, being of a very serious nature owing to his weakened condition. This was very successful and great hopes were entertained for his recovery. A few days later, it was seen that he was failing and he passed away on Thursday, April 10th.

The funeral service was held in the United Church on Sunday, April 13th. Here were gathered a very large concourse of friends from the Roseberry district and elsewhere, including many veterans of the Great War.

The returned men formed a guard of honor and followed the hearse on foot. After the interment the "Last Post" was sounded, very fittingly closing the impressive service.

Thomas Rome has resided in the Roseberry district for the past ten years. He was married in Irma, June 7th, 1921, to Miss Josephine Peirgrew, and of this marriage there were two children, Grace aged 4 and Allison, L. His patience in suffering and kindly good nature won him many friends.

The words of consolation and hope expressed in the service echoed the feelings of all and we trust that the bereaved relatives may find comfort in them.

Allison, aged 1.

ALBERTA EDUCATIONAL ASSOCIATION TO MEET IN CALGARY EASTER WEEK

The Twentieth Annual Convention of the Alberta Educational Association which meets in Calgary Easter week offers the teachers and others interested in education an opportunity to hear an educationist of outstanding ability and reputation, in Dr. Boyd H. Bode of Ohio State University, whose life work is the training of teachers.

Dr. R. C. Wallace, the President of our own University, will be heard for the first time by Alberta Teachers and the Executive has arranged a discussion for Thursday morning by outstanding educationists on the validity of our educational objectives.

The Excelsior Golf Club will furnish a treat on Wednesday evening for the lovers of song, and the city should offer an attraction for visitors for the Easter season, and last but not least, the opportunity of re-creating friendships formed at the seats of learning.

FEDERAL ELECTION QUITE CERTAIN THIS FALL

K. A. Blatchford, M. P. for east Edmonton riding, arrived home this week and announced that a federal election will take place sometime in the latter part of August or first week in September. W. A. Griesbach, Senator, arrived on Monday and gave out the opinion that an election will be held in July. However, that an election will be held this year is quite certain, and both old line parties are preparing for the fray.

YOUR PRINTING NEEDS
The News printing office is now in a better position than ever to attend to your printing requirements. A good quality of stock used on all jobs and the printing is as good as you can get anywhere. We meet city prices, and in many cases are considerably lower, stock and workmanship considered. May we fill your next order?

Heard at the poker party: "Does your wife really enjoy you?" "Sometimes. When I say 'Go ahead and never mind me,' she always does."

Ladies Organize to Raise Funds for Mrs. McKinney's Portrait

The women of the province are full of enthusiasm over the project of having the portrait of Mrs. McKinney painted and presented to the Legislative Building at Edmonton, and hope to have this accomplished before the end of the year. Mrs. McKinney has been chosen for this honor on account of the fact that she was the first woman to be elected to any Legislative Assembly in the British Empire, when in 1917 she was chosen to represent the constituency of Claresholm.

The arrangements are in charge of a committee of 23 women covering the province, and they are asking every woman in Alberta to subscribe to the fund. The honor of sending the first contribution belongs to the late Mrs. Barbara Cassels, formerly of Calgary but then living in Edmonton, who sent a donation of five dollars and expressed delight at knowing that the plan was under way.

Mr. J. L. Forster of Toronto has been chosen as artist, and he will not doubt produce a portrait which will be a fitting and lasting tribute to this well-beloved woman.

Mrs. McKinney has lived in Alberta for over twenty years and in addition to her political activities, she has been a leader in social reform and church work. She can preach a sermon or play the organ; lead the Bible class or conduct a debate; write words for a pageant, make the costumes, and direct it; run her house; entertain her friends; edit a column in a newspaper; make a party dress for some little girl whose mother is in the Hospital or otherwise unable to do it; give a paper on Swinburne at the Literary Club, and do all these things with the utmost facility and good humor. Once a month the "Y" girls have a dinner at her house, and it is a happy event to which the girls look forward for Mrs. McKinney is the perfect hostess with a good gift of making everyone contribute to the conversation.

Mrs. McKinney is held in high esteem by the women of the province for many reasons; for her sense of fairness, for her fearless advocacy of the high way of life; for her wise and kindly counsel, for her ready sympathy; for her ability to carry burdens without ever once feeling sorry for herself, but particularly for the fact that she is loved because of her delightful and cheery sense of humor which relieves the strain of her high pressure life. When asked one time during her term of office in the legislature if she did not find it hard to make so many speeches, she replied with a smile that it was not really so hard for her had only one at a time, and as she told the truth each time, she did not need to remember what she had said before.

Mrs. McKinney is one of the Five Women of Alberta who pressed the matter of women's eligibility to the Senate as far as the Privy Council and who were so gracefully thanked by the first woman Senator in her first speech in the Red Chamber the other day.

In presenting Mrs. McKinney's picture to the Legislative Assembly, the women feel they are honoring one who has made and is making a notable contribution to the welfare of our people, commemorating the fact that our own Alberta led all the British Empire in accepting the principle of equality between the sexes, and in addition they cherish the hope that succeeding generations may see in the strong, kind face of Louise C. McKinney something of the idealism, courage and high adventure of that great trail breaker, the Pioneer Woman of the West.

Contributions, big or little, will be appreciated and acknowledged by the Treasurer, Mrs. Wilbur Horner, 815-19th Avenue West, Calgary.

Nellie L. McClung,
Chairman of the Committee,
Margaret I. Sibbald,
Secretary.

SPRING CLEANING

It is not too early to send in household articles such as curtains, drapes, rugs, table covers, dresser scarves, bed spreads, ciderdowns, etc. for dry cleaning.

It is also well to consider the dry cleaning of articles which are to be put away until next winter.

It is a fact that moths will not readily attack articles that have been scientifically dry cleaned.

Practice Of Inoculating Seed Of Various Legumes Has Been Found To Be Beneficial

During the past few years practically all Ontario farmers have come to recognize the value of inoculating the seed of the various legumes when they are being grown on land which has not previously been sown to these crops or on land where their cultivation has lapsed for a period of years. This practice has proven a good one and is now used in every progressive agricultural country of the world, but the discovery of a proper method of getting the inoculation or culture to the farmer was not done in a day and the history is rather interesting.

The first efforts in this direction were made in Germany where samples of the soil which had been used for growing the legumes was transported to the virgin soil and there spread around to insure the presence of the bacteria. The disadvantages of this method were obvious and a commercial company sold a large number of prepared cultures which were found to be valueless. Agricultural colleges and experiment stations in the various countries worked on the problem for a number of years, at one time the Department at Washington believed they had a successful method of growing and sending out the bacterial cultures, but it proved a failure.

It remained for the Department of Bacteriology at the O.A.C. to devise the proper method and the culture advised was soon adopted as the one best suited for the work. The familiar bottle, half filled with a white substance is the outgrowth of this discovery and the bacteria on this culture will live almost indefinitely. Each legume has its own particular culture and the one that is supplied for alfalfa is of no value for inoculating red clover and vice versa.

Since the discovery, the Department of Bacteriology has supplied something over 100,000 cultures to farmers requesting them at a nominal charge of fifty cents. A question frequently asked is, when is inoculation required and for what crops? The common crops requiring inoculation are alfalfa, red clover, sweet clover, peas, field beans and soy beans. Inoculation should be practiced where the crop is to be grown on soil that has never before produced that particular crop and in general if it has not produced a good yield of the said crop within the past four or five years.

The Department have not claimed upturning increases after the use of the inoculant, it has been generally assumed that in about seventy cases out of every hundred there will be a substantial increase and reports have shown that in the case of the other thirty per cent. the bacteria were probably already in the soil and the inoculation thus rendered unnecessary.

It is interesting to note that rich soils which are very high in nitrogen will often produce good crops of legumes for the first time without inoculation. The reason for this is that the bacteria used in inoculating have as their function the converting of the nitrogen of the air into a form which the plants can use and in nitrogen rich soils the soil nitrogen is used when the bacteria are absent, thus seriously depleting the soil but not giving any noticeable effect on the plant.

"Mother, isn't your hair permanently waved?"
"My dear, what makes you ask such a thing?"
"I've been thinking. Why can't I have my neck permanently washed?"

A Dutch scientist proposed to attempt to create rain by taking quantities of pulverized ice above the clouds in aeroplanes and letting it drop.

"I am a letter to have my character told from my handwriting."
"What was the result?"
"Your letter shows that spelling is not your strong point." — Buen Humor, Madrid.

New Grain Act

New Act Is a Consolidation and Revision Of The Old Measure

Canada's new grain act was up for consideration by the committee of the House of Commons on agriculture and colonization. The new act is a consolidation and revision of the old measure but involves no change in the operation of the legislation except on minor points.

Col. C. M. Biggar, K.C., who drafted the new act explained the chief difficulty with the old act was that the sections were badly arranged and occasionally inconsistent. With regard to some provisions there was doubt as to their constitutional validity, he said.

In drafting the new act, Col. Biggar stated, it was necessary to find new constitutional bases for some sections in order to ensure their validity. The sections are arranged differently and simplified, he declared.

Clover a Honey Maker

Figures Show It Leads As Source Of Nectar

Clover and honey have always been intimately associated and with good reason. Figures supplied by the Lenoirville Experimental Stations of the Dominion Department of Agriculture show that clover leads as a source of nectar supplying the honey flow during the year for 40 days; fruit blooms supply nectar 26 days of the year, the dandelion for 23 days, the raspberry and goldenrod each for 20 days, with pussy willow starting the season with a 13 day supply.

(By Annebelle Worthington)

It is typically sports! A charming wearable type that adapts itself to all the season's new fabrics.

Several dresses may be made from this Style No. 2841 and each one appear entirely different.

It is sketched in wool jersey in chartreuse green, with dash of soft bow tie and suede belt. Applied neckband gives smart finish to becoming collarless Vionnet necktie.

It comes in sizes 16, 18 years, 20, 22, 24 and 42 inches bust.

Orange-red or violet blue silk crepe is effective to complete ensemble.

Pattern price 25 cents. Be sure to fill in size of pattern. Address Pattern Department.

Modern Poultry Research International Standardization Of Poultry Industry At London Congress

The poultry industry, perhaps more than any other, is becoming standardized in a universal sense through instrumentality of the World's Poultry Science Association. This organization will this year bring together at the World's Poultry Congress, seriously minded men and women from many countries who are concerned with the development of the poultry industry and incidentally with the promoting of international friendship.

The fourth congress which takes place at the Crystal Palace, in Old London, England, in July this year, promises to exceed any of the previous ones. At that meeting there will be pooled the best and most recent knowledge concerning the various aspects of the poultry industry in all parts of the world. Modern poultry research, education and economics will be revealed through papers and discussions and national exhibits from half a hundred countries.

Displays, on an international basis, of purebred poultry will bring out the best that has been achieved in poultry improvement. Commercial exhibits at that great show will reveal what the trade has accomplished in providing the requirements of the poultry industry, and of carrying it on in a profitable way.

Peasants Exempted From Farm Taxation

Soviets Wish To Encourage Them To Stay On Land

A number of important exemptions for peasants on collective farms have been decided upon by the Communist party. The object is to encourage peasants to stay on such farms and also to promote the growth of these institutions. The exemptions include the following: Freedom from taxation for two years on all cattle and horses. An extension of a credit of \$250,000,000 to promote collective farm organizations.

Postponement of all outstanding debts of collective farmers until the end of the harvest season. Cancellation of all fines imposed upon such farmers for failure to carry out terms of the government grain collecting campaign.

Reduction of the total agricultural tax for the fiscal year 1930-31.

Proves Planet Exists

A photograph taken at the Helian Observatory confirmed, it was stated, existence of the Trans-Neptunian planet recently discovered by the Lowell Observatory at Flagstaff, Arizona. Photographs of the planet were taken March 16, 24 and 27, the body appearing on the sensitive plates after an hour's exposure in each case.

The finest after-dinner speaker we ever heard only said, "Waiter, give me the bill."

Serious Problem For Cattle Committees

Herdsman Said To Be Resorting To Knife and Needle For Show Ring Purposes

The Farmers' Advocate says: Cattle committees who outline the policy and lay down the rules which govern exhibitions in Canada are giving earnest thought and consideration to the serious problem of detecting and barring "doctored" cattle. The large exhibitions, both East and West, realize that something must be done to prevent the public being hoaxed by super-expert herdsman who are able to use knife and needle in beautifying their cattle. It is a practice that should be neither condoned nor permitted and the fair boards are acting wisely in their attempt to ban the doctored animal and the exhibitor who offers such animals for competition.

One suggestion is that all cattle be inspected by a veterinarian before entering the ring. This entails much unnecessary work, and any animal found tampered with would simply be led back into the stable to be presented at future shows or exhibitions held elsewhere. It becomes necessary to inspect only a few cattle, the champions, and reserve champions, and the fear of exposure after winning such honors would deter any exhibitor from going to undue lengths in treating or preparing his animals for the showing. It is not the cattle that win third, fourth or fifth place in a class, or are outside the prize money altogether, about which a fair board needs to worry. Not one in a hundred of them receive more than ordinary fitting.

It is the cattle that are winning high honors in the show-rings of Canada, and the United States that need watching. Neither do we wish to imply that all cattle that win championships are dishonestly fitted or treated. Many breeders and exhibitors would condone no such practice; but it is known that herdsman are resorting to the knife and the needle, and fair boards cannot overlook the fact.

Would Curtail Production

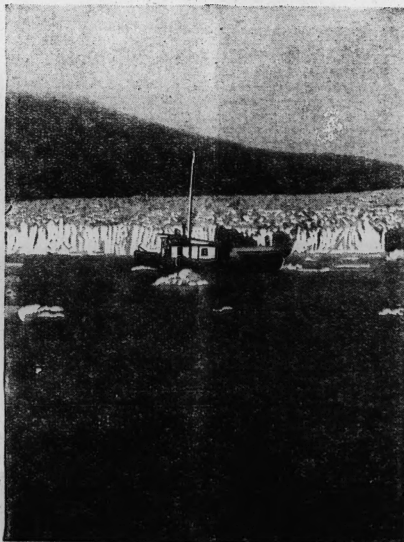

Effort Made To Reduce Spring Wheat Planting In United States

Two United States government preachers of the gospel of curtailed production as the only real salvation of wheat farmers made ready in Chicago to speed over the great spring wheat area of the northwest in a last-minute effort to forestall the planting of wheat on at least 2,000,000 acres.

The two men were Dr. John L. Coulter, chief economist of the tariff commission, and James Howard, federal farm board representative and former president of the National Farm Bureau Federation.

Their final plans for the intensive campaign by which they hope to reduce spring wheat acreage by 10 per cent. were made in conference recently with Alexander Legge, president of the Farm Board.

THE TAKU GLACIER

This ice field, one of the largest in the world, is one of the many wonders which are to be seen on the route of the Canadian National Steamships between Vancouver and Skagway, Alaska. All of the three boats in this service, the "Prince George," "Prince Rupert," and the new "Prince Henry," pass within a stone's throw of this glacier, the height of which can be judged by the fishing smack in the foreground. The glacier is 90 miles long and only about one-quarter of its width is shown in the photograph.

State Of Canadian Business Is Fair In Comparison With Conditions In Other Countries

Delegation To Investigate Modern Farm Machinery

Men From Britain Visiting Canada and United States

Commissioned by the British Government to spend some weeks in both United States and Canada to investigate modern farm machinery and labor-saving device on the farm, J. E. Newman, of the Institute of agricultural engineering, Oxford University; Thomas Baxter, ex-president of the National Farmers' Union of England, and G. Clarke, representing labor organizations, were in Montreal, recently, on their way to Ottawa. The delegation was met by F. W. Walsh, superintendent of agriculture of the Canadian National Railways, who extended to them the facilities of their department for assisting them in their investigations.

The members of the delegation stated they expected to spend the greater part of their time in the United States, investigating very thoroughly the use of labor-saving machinery in connection with grain and root growing and will visit particularly the states of Kansas and the Dakotas. Later on they hope to visit Western Canada.

In Ottawa they interviewed Sir William Clarke, British high commissioner to Canada, and heads of the various branches of the federal department of agriculture. A similar mission toured Canada in the fall of 1928, and secured much valuable information.

A Good Slogan

"An Acre Of Alfalfa For Every Cow" Takes On New Meaning

"An acre of alfalfa for every cow" is a slogan adopted in many districts where live stock is kept, and with modification to suit local requirements it is one which receives strong support by the Dominion Department of Agriculture. With the short crops and difficult seasonal conditions of 1928 and 1929, the need of adequate provision with respect to fodder crops became more apparent. Not only will the application of this slogan to alfalfa, or suitable clover or hay crops, go far to meet the urgency of the present situation, but it would also provide a useful and profitable rotation medium for keeping soil up to production capacity and assist in weed control. This scale of planting not only provides adequate pasturage but allows a surplus for feeding to other farm animals and often provides a carry-over of hay to a lean year.

More Milk Is Used

Consumption Per Capita Has Practically Doubled In Canada

During the past eight years domestic milk consumption per capita has practically doubled in Canada. The Dairy and Cold Storage Branch of the Dominion Department of Agriculture attributes this increase to the growing demand of the sweet milk trade and to increasing popularity of ice-cream. Canada's exports of dairy products have declined materially, and this has been due in part to the increasing domestic consumption and in part to the large numbers of high quality milk cows which have been sold to United States buyers and gone out of the country. In this connection it is noted that there were approximately 100,000 fewer good milk cows in Canada in 1928 than there were in 1927. Canadian dairymen are realizing the economic danger of the situation, however, and few sales of high grade milk cows are now reported.

Sounds Like Magic

Almost magical is the skill which was used to alter a noted restaurant in London while business was carried on as usual. Now by means of an ingenious device, the Empire and Regency rooms, each seating 250 diners, will become one. At the touch of a switch, a vanishing wall 66 feet long, 15 feet high and 15 tons in weight, will, complete, with decorations, lighting and doors slip through the floor.

Western Aircraft Industry

MacDonald Aircraft Limited, a subsidiary of the MacDonald Bros. Sheet Metal and Roofing Limited, of Winnipeg, is the newest addition to Winnipeg's aircraft industries. The company will manufacture EDO floats for the whole of Canada.

The cougar, while very aggressive among the lower animals, exhibits an intensive fear of mankind.

Whist the state of Canadian business is uneven and may be regarded as disappointing compared with that of a year or two ago, it is fair in relation to world conditions, declares the monthly commercial letter of the Canadian Bank of Commerce. Canada's unemployment problem, though by no means negligible, is not nearly so acute as in some of the older countries, the letter points out.

During the month of March business conditions showed a gradual accession in industrial and construction operations, which tended to offset unsettlement in other branches of commerce, says the bank's letter. "We have mentioned before that the reduction in agricultural purchasing power would leave its mark on the economic structure and it's has proved to be the case. Until the farming community experiences favorable weather and market conditions, business as a whole will continue on a smaller scale than in the four preceding years. However, Canada is fortunate that capital expenditures on development projects continue in large volume."

In the matter of European trade the bank's letter remarks that with the prospect of further substantial progress, Europe seems to offer good opportunities as an export market for those Canadian commodities which require an expanding market owing to Canada's increased productive power.

Prairie Cattle For Peace River

Cannot Procure Right Type Of Cattle In British Columbia

The cattle suitable for sale on easy terms to settlers in the Peace River district have been found on prairies and will be purchased there shortly, Hon. William Atkinson, minister of agriculture, announced on his return to Victoria from a prairie tour.

"There may be some surprise that we are not securing these cattle in British Columbia, but our northern settlers," said Mr. Atkinson. "The fact is that we cannot secure here the type of cattle which these people must have for their conditions. What is required is a general purpose animal. Our fine dairy cows would not endure the cold there. It is necessary therefore to secure such cows as are to be found on the prairies only at this time."

Mr. Atkinson proposes to send experts of his department to the prairie shortly to select the animals which will be moved north in May to Peace River people. Probably about 150 animals will be sent this spring.

Ten Thousand Stings By Mail

Now Possible To Send Package Of Bees By Mail

With the improved technique which has been developed for the handling of package bees it is now possible to send them by mail, and the bee experts of the Dominion Department of Agriculture find that very satisfactory results are obtained by apiarists through the use of package bees to replenish weakened colonies and to establish new ones. The bee package is a wire-covered wooden frame work, usually containing two pounds of live bees. There are some five thousand bees to a pound. A shipment by mail is now possible and shows the package of bees become broken open in transit ten thousand stings is the potential result.

Information Wanted

Mrs. Newlywed: "Oh, I wish these recipes would be more definite."

Mr. Newlywed: "What's the difficulty, my dear?"

Mrs. Newlywed: "Well, this one tells how to use up old potatoes, but does not say how old the potatoes must be."

The greatest earthquake area in the world is said to be in Italy.

Sweet Clover.

University of Alberta Finds Sweet
Clover Seed Yields Better if Sown
Without Nurse Crop.

This legume has become very popular in Alberta. It is winter and drought hardy, and will often give fair yields on land which is too alkaline for our cultivated grasses and cereals. Sweet Clover is a valuable soil improver, as it returns nitrogen and humus to the soil in addition to improving the soil texture. This crop is well adapted to short rotations because of its biennial habit, that is, it lives only two seasons.

The hay produced is quite palatable and nutritious if cured at the proper stage, but rapidly becomes coarse and loses its leaves if allowed to become too mature before cutting. As a general rule, the quality of the hay is poorer than alfalfa, being coarser and slightly less palatable, although very similar to alfalfa in that it contains a high percentage of protein and lime.

Arctic is the only variety eligible for registration by the Canadian Seed Growers' Association. Selected at the University of Saskatchewan, it is somewhat earlier and harder than the common sort, and produces a heavy yield of both fodder and seed. It has the further advantage of being apparently resistant to root-rot. This is particularly important, since there is reason to believe that some if not most of the reported winter-killing of white sweet clover in recent years has been due to root-rot injury in the early spring.

Seeded without a nurse crop, sweet clover at Edmonton yields in the season of planting up to 2 tons per acre of cured hay, and in the following season a larger yield of hay or 6 to 10 bushels of seed. Seeded with a nurse crop the vigor of the plants and the yield are greatly reduced in the second season. About 2 bushels of seed per acre are produced at Edmonton under these conditions. To secure a good stand, the seed should be inoculated with nitroculum. Sufficient nitroculum to inoculate 60 pounds of seed may be obtained free from the Division of Bacteriology, Experimental Farm, Ottawa, or at a small cost from the School of Agriculture, Vermilion, Alta.

In view of the numerous inquiries which are received as to how sweet clover seed can be hulled and scarified without the use of special equipment, it may be stated that these operations can be carried out simultaneously with reasonable satisfaction by running the threshed seed through an ordinary grain grinder. A little practice will show how to adjust the grinding plates for best results. The seed may then be cleaned with an ordinary fanning mill.

The above is taken from the Press Bulletin issued by the Extension Department of the University. If farmers who are unable to secure sufficient seed to sow all the acreage they would like to, would sow a small patch in the spring they could have their own seed by the fall of 1931. Care should be taken to get good seed and sow it on land free of noxious weeds. It can be threshed easily by any separator and the ordinary fanning mill will clean it good enough for home sowing. But remember the easiest way to get clean seed is to sow clean seed then pull any weeds that appear when the crop is growing.

VIKING

The Elks Lodge are sponsoring a dance in the Elks Community Hall on Easter Monday, April 21st. The Viking Serenaders have been engaged to furnish music, and as this is the first social gathering of its kind after the lenten season, a large crowd will no doubt be on hand. Tell your friends far and wide that a real good dance will be staged at Viking on April 21st. Everybody welcome.

Clem Loughlin returned last Wednesday from a successful hockey season at London, Ont.

Mr. and Mrs. J. L. Dodds and Mrs. Skinner motored to Edmonton, over the week end.

A number of young folks from Kinross and district visited at the home of Mr. and Mrs. L. J. Rasmussen last Wednesday evening. Lunch, games and music, formed a delightful evening. Musical numbers were furnished by Chan Collins and C. Harper.

E. B. Hummel has opened an egg grading and buying station in the building recently vacated by H. S. Jensen & Co., and is prepared to buy all the eggs produced in the district. B. Wainwright & Co., an Edmonton firm assisted him in the opening.

VIKING

Enthusiasm reigned at the debut of the Viking Junior Band at the Community Hall on Thursday evening. The whole performance and programme was a delightful surprise to the large crowd in attendance.

The nine selections played by the band showed that the members had mastered the first rudiments of music and in the ensemble playing, good harmony and tones prevailed. The spontaneous applause that greeted each selection was well merited and a tribute not only to each and every member, but to the bandmaster, Mr. Basil Hilliker, who unfortunately on account of illness, was prevented from being present, and to the assistant bandmaster Kenneth Hilliker, who stepped into the breach and filled the duties of leader and instructor in a very able manner indeed.

Signa Hafso and her little brother Herman played a clarinet and cornet duet that was a revelation of the progress that has been made by the youngsters since the band was organized a few months ago. The tones were sweet and the duet was a pretty little number in every respect. Little seven year Arthur Jones blossomed forth as a xylophone artist, and it was astonishing how this little fellow played popular airs on this instrument. He had to respond to an encore before the crowd would let him take his seat. Miss Dorothy Jones was the accompanist.

Rev. Mr. Bainbridge and Rev. Fr. O'Neill in short talks gave their views on the influence of music in the home and in the community, and took occasion to congratulate the members of the band on their progress and performance and encouraged them to continue the good work. The bandmaster, as well as the assistant, were given some very favorable and well deserved words of appreciation.

A short one-act play called "Rats" was well acted by Misses Bessie Hart and Gladys Harris, and Messrs. L. Rasmussen and Ken Hilliker. Many laughable and hilarious situations resulted from the efforts of George Whipple, acted by L. Rasmussen, to sell his latest scientific discovery and invention, a rat poison, with a very penetrating odor, to his rich uncle. To offset the odor he had designed some "nose pokes" to wear while the poison was being used, and in the final analysis it was these "nose pokes" that brought him fame and fortune. There was the usual happy ending.

The band was organized last August with thirty-nine charter members, all of public school age. Few, if any, had any previous musical training. The ability to manipulate and play these instruments so well as they did last Thursday evening was a striking tribute to the indefatigable efforts of their instructor in training them. Unless having had something to do with training bands, no one can fully realize the laborious and painstaking task it is to undertake this as a volunteer effort. If the band can be kept together (and it is to be hoped that it can) together with the early restoration of the band master, to good health, they will in a short time be able to furnish as good music as any band in the country.

Word has been received that the provincial government will maintain the Hanna-Viking highway under the original plans of last year. It will be recalled that a month ago a delegation representing all the municipalities between here and Hanna had an interview with the Minister of highways in this regard but were given no hopes that it would be maintained as a main highway. They evidently have changed their minds and the delegation can feel that their efforts were not in vain after all. We must give the delegation credit for having accomplished something. Now if we get some gravel on the Edmonton-Wainwright highway this part of the main line will be getting a share at least of the highways program for this year.

R. S. Nease, secretary for the Kinross Golf Club, was a visitor in town on Saturday. He extolled the virtues of the game in such glowing terms that we were almost persuaded that the golf bug might get us after all.

The share selling campaign conducted by the Northwestern Utilities for the past two weeks, has been fairly successful. The gas company intends to improve the main distributing line, and has a drilling program now underway in the local field, where research and geological work is also being undertaken.

Bob McAthey left on Thursday for Calgary where he will begin training for a course in pharmacy in a drug store operated by Sid Ross, son of Mr. and Mrs. Angus Ross, of this place. He was accompanied to Calgary by motor by his father and brother Jack, who returned home late Saturday evening.

J. F. Murray, of Kinross, was a pleasant caller at this office on Monday.

Here and There

(503)

Canadian Pacific Railway Friday night broadcasts are now being sent out across the Dominion from coast to coast. Letters are being received from all parts of Canada in appreciation of the programmes and of the radio receptions in all centres. Arrangements have been made with the National Broadcasting Company of the United States to place special C. P. R. programmes on the air, early in April, over WJZ to thickly populated sections of the Eastern United States.

Veteran of 55 years railway service and one of Canada's earliest telegraph operators, William Phillip Martin, formerly assistant superintendent of the Canadian Pacific Railway, died in Vancouver recently. He learned telegraphy from his father when a boy and became a chief dispatcher at the age of 18.

Discovery of a new species of whitefish in Clear Lake, Manitoba, is announced by A. Bakjov of Manitoba. The new species has been named Coregonus Odonochoe, in honor of Dr. C. H. O'Donoghue, formerly of the faculty of Manitoba University. The newly discovered fish is common in Clear Lake. It lives at a great depth during the summer, coming to the surface only in the spawning season.

Sixty head of pedigreed cattle and sheep from the Royal estates in England is the object of Professor W. L. Carley's trip to the Old Country aboard S.S. Minnedosa recently. They are destined for the Prince of Wales ranch at High River, Alberta, and are a further proof of His Royal Highness' interest in improving Canadian live stock.

As far as the army is concerned, the horse will be a museum piece within the next 20 years, said Brig-General W. B. M. King, recent arrival on S.S. Duchess of York, after a trip during which he inspected regiments of the British Army. General King added that the mechanization of the army was taking rapid strides and, though a costly operation, would pay for itself by decreased maintenance charges within a period of five years.

New Brunswick has an estimated population of 419,000, according to the twelfth annual report of the chief medical officer of the provincial department of health, tabled in the Legislature recently. An interesting detail of the report was the statement that during the last year there were 25,000 persons who had been permanently immunized against diphtheria.

Surest sign of spring in Eastern Canada is the running of the sap in the maple trees. This annual harvest is now on, and the total value of maple sugar and maple syrup produced in Canada was \$5,118,000 last year. The maple cruces mostly to farmers and the province of Quebec is the leader of the industry in Canada.

Ten years ago capital investment in electric power in Canada was about \$400,000. Today it is over a billion dollars and total power available from present installation is nearly 8,000,000 kw. This is about one-fifth of possible development.

The Canadian Pacific Railway by the Canadian Pacific Railway is announced by E. W. Benson, chairman and president of the latter company. The property runs between Little Current and Sudbury and its purchase is subject to approval of the board of directors of the Canadian Pacific and to ratification by shareholders at the annual meeting to be held May 7 next.

For several years Canada has led the world in aerial surveying and last year consolidated that leadership by applying, for the first time in any country, aerial methods to geographic reconnaissance and transportation. Around 70,000 square miles were covered by aerial photography and the Royal Canadian Air Force and the Canadian Government Department of the Interior.

Canadian investments abroad at the end of 1928 totalled \$1,579,074,000, according to a recent official estimate. Of this amount \$474,626,000 is invested in the United States; \$111,915,000 in Great Britain; and \$372,533,000 in other countries.

Available horsepower in Canada is 20,197,000 horse power under conditions of ordinary minimum flow and 33,113,000 horse power under conditions of ordinary six months flow. Only about 6,000,000 horse power has been harnessed.

The first Canadian woman Senator, Hon. Cairine Maxwell Wilson, is the mother of eight children ranging in age from 20 to 4. Prior to the appointment there was doubt as to whether women could legally be appointed to the Senate and the question was carried to the Privy Council which held that women were persons and therefore entitled to sit.

About 134 million meals a year are served to travellers by the Canadian Pacific—that is to say, 2,233 meals every day, 223,000 every week. This gigantic total is made up of about 4,200,000 in dining cars and station restaurants; 4,150,000 on Atlantic or Pacific steamships; 1,250,000 on inland and coastal steamers; and 3,500,000 in popular restaurants, hotels and bungalow camps.

J. F. Murray, of Kinross, was a pleasant caller at this office on Monday.

KINSELLA HAS GOLF COURSE

The little hamlet of Kinsella, eight miles east of Viking can boast one of the finest nine hole golf courses in the province. Only last week the Kinsella Golf Club was formed, with A. A. Wadden as president; W. L. Ferries as vice-president, and R. S. Nease, secretary. There are several old time golfers residing in the district who are very enthusiastic about the club which starts out with good prospects of success.

A nine hole course has been laid out south of the railroad track east of town and covers a distance of a mile and a quarter. The land is ideal for the purpose. A considerable amount of work has already been done to put it into good shape. The membership fee is \$5.00, and everyone interested in golf is invited to join. Golfers from neighboring towns are invited to come and try out the course and should make arrangements with the secretary for games.

To Hood McQuire goes the honor of being the first one to seed wheat this spring. He completed the seeding of a twenty-five acre field last week.

Joe Beschell who has spent the past month in Edmonton returned to town this week, and intends spending the summer months here.

John Elliott, formerly of this district, but now of Edmonton, spent the week end with relatives and friends here.

The Kinsella hotel is being treated to a coat of paint and calomine. J. H. Smith is the decorator.

The Kinsella Tennis Club re-organized and with quite a strong membership are again facing the world with unbounded vitality, and are fast becoming slow death for all tennis stars.

Wm. Rees and family has moved to Calgary to make their future home. Mr. Rees intends securing work at the Turner Valley Oil Fields.

Ed. Brulhaug has purchased the quarter section occupied by W. Swab, and is making preparations to farm same.

Johann and Lewis Overbo of Vlna, Alta, is spending a couple of weeks with relatives and friends here. They report an outbreak of scarlatina in Vlna and surrounding districts.

K. Overby, K. Vehus, T. Skori and Ed. Hogg motored to Turner Valley last week in search of work in the oil fields. K. Overby and T. Skori returned while Ed. Hogg remained at Calgary and K. Vehus went on to Moose Jaw, Sask. They report work very scarce.

THE OUTLOOK

While seeding operations for Alberta's 1930 wheat crop are proceeding at a rapid pace the world's wheat situation is still very unsettled, and there is much speculation as to what the price of wheat will be next fall. Economists are not hopeful of any great increase in price unless there is a short crop in every major wheat producing country. Another factor which may have an important bearing on the price of the 1930 crop is the advent of Russia into the wheat exporting business. The Soviet government has under way a huge state farm scheme to raise wheat for export. If the scheme is successful Russia may have an important influence on the market.

In spite of the none too bright outlook for the wheat market, farmers in this and neighboring districts are going ahead and seeding their usual acreage to wheat.

And the immediate concern of the farmers here is local crop conditions and prospects rather than the outlook for the 1930 market. Only a very light rainfall has fallen this spring, and there has been no moisture for the past two weeks. The soil is dry, but summerfallow, on which most of the wheat crop is being sown, contains some moisture at a depth of several inches. Although a good heavy rain would lend a more cheerful tone to crop prospects, the wheat grower has nothing to worry about this early in the season. It is impossible to forecast what rainfall we shall get this summer, and he is a rash man who would attempt to do so. Early spring weather conditions appear to have no relation to those that follow later in the season. It just rains when rain comes, and is dry when rain falls.

In recalling the history of this district it is interesting to note that in early spring of 1915 was as dry as this spring, but was followed by one of the rainiest seasons ever experienced here.

NEWS ITEMS FROM JARROW

Mrs. E. L. Peet returned to her home, from Viking hospital on Monday. We are pleased to see her so much improved.

Mr. Bridgeman is also home from Viking very much improved in health. The rains and snow of the past few days makes everyone feel better.

Mrs. J. Kennedy, of Edmonton is visiting with her daughter Mrs. C. A. Jenkins.

Mr. E. Hardy, who lives four miles south of town, held an auction sale on Tuesday. He expects to leave this district.

Mr. S. McGregor left for Edmonton on Tuesday afternoon.

Mrs. James Miller is reported better, but will be in the hospital for some time yet.

Miss Dinwoodie, teacher of the Junior school is spending Easter holidays at her home in Lavo.

Miss Smith and Miss Nicholson and E. Dupre, of Wainwright, visited with Miss Dinwoodie on Sunday.

Mr. and Mrs. Norman Luxton are visiting their parents in Innisfree for the holidays.

H. B. McCully is down from Prince Albert, Sask., to help George Grant move his belongings across to their new home.

We are glad to report that Mrs. H. H. Miller is much improved and will soon be home again.

Harold Whidden, Leslie Moore and George Therou all took horses to Irma on Monday and brought back machinery in return.

Thaw and rain which fell the first of the week was indeed welcome and everyone is looking forward to a good year.

Come out and hear the Easter services on Easter Sunday at the Batts School. A short program is being prepared and Mr. McNeil's address will be the Easter Message.

NEWS ITEMS FROM KINSELLA

Mr. C. Wachter has returned to the B. & B. department of the C. N. R. after being laid off for some months. Mr. and Mrs. Fred Ross, son and daughter of Viking, spent Sunday afternoon with Mr. and Mrs. P. J. Wangness.

Mrs. Figure is spending some time in Edmonton. Miss Kathleen Ferries of Lougheed, spent the week end at her home here.

The Easter tea which was held by the Kinsella school on Saturday afternoon, April 12th was well attended. The tables were decorated with bouquets of daffodils and the girls waiting on the tables were dressed in white and wore white aprons trimmed with yellow. The proceeds from tea being \$12.00.

Mr. and Mrs. William Anderson are expected home from the coast this week, where they have spent the winter.

Mr. Joe Justik of Camrose spent the week end at his home here.

Household Hints

BAKED TOMATOES and CORN—2 cups corn, 2 cups tomatoes, 1 cup fresh bread crumbs, 1 tsp. sugar, 3 tsp. butter. Mix all together and pour into buttered baking dish. Use melted butter to pour over bread crumbs. Spread crumbs over mixture and bake until brown.

GOLDEN ROD EGG—1 hard-cooked egg, 2 slices toast, 2 tsp. butter, 1-2 tsp. flour, 1-2 scalded milk, little white pepper, salt. Prepare the sauce. Add the white of egg chopped fine. Pour over the toast and rub the yolk through a strainer over the top. Serve at once. To make sauce, melt butter, add flour and gradually the scalded milk. Cook well and season.

SCALLOPED CABBAGE—In the bottom of a baking dish put a layer of cracker crumbs, then a layer of shredded cabbage. Sprinkle with salt, pepper and several pieces of butter. Then place another layer of cracker crumbs and cabbage, etc., until dish is full, having crumbs on top. Pour enough milk over to saturate and bake from 3-4 to 1 hour.

BAKED FILETS OF FISH—Have ready some good beef dripping. Cut an onion very fine and put it in a small basin with dripping. Let it bake slowly for about an hour, or sufficiently to cook onion. Set this aside, and it will keep for several weeks. Grease baking pan well, and into it put washed filets of fish. Season with salt and pepper. Sprinkle with fine dry bread crumbs and dot with small pieces of dripping and onion mixed. Bake about eight or ten minutes in very hot oven. If onion is used raw, and baked with fish, it frequently burns or blackens. Baking it first in the dripping obviates this and also makes the baked fish far tastier.

If you have something valuable that you don't want and somebody else can use it, an ad. in this paper will sell it for you. Try it.

NOTICE OF THE MUNICIPAL DIST. OF KINSELLA No. 424
Complaints having been received concerning rubbish, tin cans, etc., being left lying around the Hamlets of Kinsella and Jarrow, notice is hereby given to the various persons responsible that the Council insist upon these being cleaned up, the Health Inspector will be visiting shortly when he will check up on this.
B. H. GREEN, Sec. Treas.
M. D. of Kinsella No. 424

Stops a Cough In One Night

A cough may be Catarrh with a dry tickling in the throat, it may be accompanied by partial stoppage of the nostrils and shortage of breath. Often there is a gagging in the throat, and every cough tears and hurts.

Coughs have a hundred different causes, yours may be due to any of the following:

Asthma **Enlarged Tonsils** **Inflammation** **Stomach Disorders** **Infamed Throat** **Bronchitis** **Pneumonia** **Croup** **Pleurisy**

One remedy upon which physicians are relying today is Catarrhoxone. It removes the cause of the cough, doesn't smother it.

It's simply wonderful to think how quickly a bad throat or catarrh can be helped with Catarrhoxone. Its rich balsamic vapor is carried along with the breath to the innermost recesses of the lungs, bronchial tubes and chest, making it impossible for the germ of Catarrh to live. Thus soreness in the chest is at once alleviated—phlegm is loosened and ejected from the throat, old standing coughs are removed.

REMEMBER THIS, you breathe Catarrhoxone and it will alleviate coughs, colds, catarrh, and weak throat. Large size, guaranteed, costs \$1.00, and lasts two months; smaller sizes, 25c, 50c, 75c. Beware of imitations and insist on "CATARRHOXONE."

WORLD HAPPENINGS BRIEFLY TOLD

Activity in civil aviation in Canada doubled during 1929 according to figures made public at the National Defence Department.

On its annual arctic cruise this summer, the S.S. Beothic will endeavor to reach Melville Island, situated 300 miles beyond the most westerly point yet reached by steamship.

Prominent railroadier, pioneer of the West, and veteran of the first rebellion, W. H. Tomkins, 65, died recently at his home in Winnipeg. He was captured and held prisoner at Batoche, Sask.

Mr. H. C. Montagu Norman was re-elected governor of the Bank of England. This makes the eleventh year in which he will fill the office of governor to which he was first elected in 1920.

J. R. Nesbitt, of Shoal Lake, prominent dairyman, has been granted an honorary diploma from Manitoba Agricultural College. The honor follows the established custom of honoring each year one outstanding man in Manitoba's agriculture.

In a motion picture by city council, of Toronto, police commissioners have been asked to prohibit the operation of a "bad and doubtful debt" collecting car, whose driver, clad in a brilliant uniform, with his gaily decorated car parked in front of homes of debtors, drew a good deal of unbecoming attention.

Ralph Hall and Ralph D. James, of Vancouver, students at the University of British Columbia, have been awarded mathematical scholarships, valued at \$1,000 each, by the University of Chicago. These are the first awards of the institution to Canadian students who plan to specialize in mathematics.

Because "the results were not very satisfactory," there will be a repetition this year of the provincial government's placing British trainees on Ontario farms. Hon. John S. Martin, minister of agriculture, has stated. Any trainees that do come, he added, will have to come under the United Church settlement scheme, the Dominion government or the railway companies.

Many Uses For Spruce

The wood of all Canadian spruces is tasteless and odorless, making it valuable for food containers. It is also in great demand for musical instruments, principally for organ pipes, piano sounding boards, violin backs, etc.

Inquiry by experts of the Mayo Foundation indicates that rheumatic persons can "sense" the approach of rain.

Dandruff

You needn't be bald. Minard's kills Dandruff, checks falling hair, stimulates new growth and adds a healthy gloss. Rub into scalp with finger tips, four times a week.

London Woman Fills Important Position

Made Chairman Of Central Public Health Committee

A woman has been chosen at the head of a vast public undertaking of vital importance to thousands of Londoners.

On April 1, the old Boards of Guardians will have ceased to exist. Their functions as far as the County of London is concerned will be exercised by the London County Council. A new committee called the Central Public Health Committee will be responsible for all the infirmaries, hospitals and institutions previously administered by the Metropolitan Asylums Board, and also for the public ambulance services now administered by the London Fire Brigade and the M.A.B.

The chairman of this committee, which will have the health and welfare of thousands of Londoners under its control, is Dr. Florence Barclay Lambert, a well-known member of the London County Council, and the chairman of the old Public Health Committee, which under the new regime becomes a sub-committee of the Central Committee.

It is a colossal job to place upon the shoulders of a woman. It involves the care of the necessities of a city of millions.

An Exciting Pursuit

Cave Exploration Has Added Much To World Knowledge

An archaeologist says there are numbers of caves yet to be explored in England with good prospects of "finds" throwing light on prehistoric times. In Derbyshire at least a dozen caves have this summer been explored for the first time. Here there were human jaws and other bones, remains of cave bears, and antlers of the giant elk, a creature from ten to thirteen feet high, which is not to be met with in Derbyshire nowadays. Cave exploration is an exciting pursuit, and its results in various parts of the world have added a great deal to the knowledge of early man and the beasts he had to contend with.

Experiment a Success

Complete Newspaper Page Sent By Radio From San Francisco to New York

The complete front page of a newspaper has been transmitted across the country by radio for the first time.

Giving the present a peep into what may be commonplace in the future, engineers of the General Electric Company at Schenectady, N. Y., reported that successful experimentation had permitted them to read the first page of the San Francisco Call-Bulletin three hours after it had left the press. It was reproduced in full size in the laboratory of a new type automatic carbon receiver, connected to short wave receiving equipments actuated by signals originating 2,000 miles away.

The engineers did not hesitate to forecast many possibilities for this improvement in facsimile transmission, which, while still in a highly experimental stage, gave an indication that some day radio may be delivering a large part of business mail and may also bring daily newspapers directly into the home.

Appears In Real Life

Forgetful Professor Gives Luncheon and Forgets To Attend

Professor Alfred A. Michelson, distinguished University of Chicago scientist, gave a luncheon for Dr. Lee DeForest, radio tube inventor, and forgot to attend it. It was a gathering of famous scientists at the Quadrangle club, assembled at the invitation of Professor Michelson to honor Dr. DeForest. The distinguished guests waited and waited. The soup got cold. Finally Dean Henry Gale of the University of Chicago physics department, stepped in as substitute host and the luncheon went on.

Heart and Nerves Caused Her To Have Cold Hands and Feet

Mrs. Joseph Price-Red Pine, N.B., writes:—"Several years ago I was troubled with my heart and nerves and was so bad at times, my hands and feet would become numb and cold."

"I happened to see

advertised and started taking them at once. I continued for some little time, and since then I have had no return of my trouble."

Price, 50c. A box of all druggists and dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Passenger Air Service

Air Mail Service Will Now Take Passengers Over Prairies

Western Canada's first passenger air-service across the prairies was officially inaugurated recently by the air mail contractors, Western Canada Airways, with the issue of an official scale of transportation rates from Winnipeg to western cities now served by the air mail planes.

The new rates for carrying passengers over the sky route across the western plains are approximately the railway fare plus one-half. J. A. McDougall, secretary of Western Canada Airways, said last night, and officials of the company believe that it will not be long before the travelling public will avail themselves of the new and swift means of transportation.—Free Press.

Will Combine Exhibits

Saskatchewan, Manitoba and Alberta will combine their exhibits at the World's Poultry Congress to be held in London, England, next July. The exhibit will occupy a frontage of 36 feet and will be the largest of the provincial exhibits.

Strengthening Butter Boxes

Recent tests on butter boxes at the Forest Products Laboratories, Department of the Interior, showed that one wire applied around the centre of the box doubles its strength.

Middle-age is the period when you know a dozen dandy ways to regain vim and vigour if you only had time.

**Horses Do a Half More

DO YOU SUFFER WITH HEADACHE?

So easy to get quick relief and prevent an attack in the future. Avoid bromides and dope. They relieve quickly but after the heart and are very dangerous. They are depressing and only give temporary relief, the cause of the headache still remains within. The safe and harmless way. First correct the cause, sweeten the sour and acid stomach, relieve the intestines of the decayed and poisonous food matter, gently stimulate the liver, start the bile flowing and the bowels pass off the waste matter which causes your headache. Try Carter's Little Liver Pills. Druggists 25c red pkg.

Recipes For This Week

(By Betty Barclay)

VEAL A LA KING

2 pounds lean veal.
1/4 cup butter.
6 carrots.
2 onions.
1 bay leaf.
4 cloves.
1 quart cream.
1 sweet pepper.
1 can mushrooms.
1 can sifted peas.
2 cans noodles.

Two pounds of lean veal—trim off all fat and cut into cubes about one inch square. Brown lightly in 1/4 cup butter. Add water to cover well. Add 6 medium-sized carrots, 2 medium-sized onions cut up, 1 sweet pepper, 1 bay leaf, 4 cloves, and boil all together until meat is tender. (Do not let water boil down—add enough to keep about 1 pint of liquid.) Add 1 quart of sweet cream which has previously been heated to boiling point, thickened as for gravy, and add one can mushrooms cut up. 1 can sifted peas. Salt to taste. Add 1/4 teaspoon paprika. Serve on chow mein noodles.

PANAMA SALAD

(Serves 4)

4 slices pineapple.
2 large oranges.
1/2 head lettuce.
1/2 Maraschino cherries.
1 green pepper.
Place slice of pineapple on bed of lettuce. Lay sections of orange on pineapple slice, to form a domed appearance. Cut a rosette of cherry and place on top of fruit sections. Rosette is made by cutting the cherry in six or eight sections leaving it joined at the tip. Two diamond-shaped pieces of green pepper are placed on each side of the salad, near the cherry. Serve with French dressing.

Canada's Oldest Men Dead

Within a period of less than three weeks death claimed the two oldest men in Ontario, and two of the oldest in Canada. James Wilson, 109-year-old negro, died at his home in Wexford, Ont., and two weeks later at St. Joseph's hospital, Peterboro, James Hedley, of Peterboro County, died in his 109th year.

Art On Ocean Liners

Big Ships Are More Modern In Decoration Than Most Hotels

It is not only in speed that great steamships are setting new standards. Design in cabins and public rooms is changing quite as radically as in the engine room or in the streamlines of the vessels themselves. Modern art has stepped aboard the liner and made pre-war decorations look very smug and old-fashioned.

Advertising circulars are wont to characterize big ships as floating hotels, and in other days their saloons, smoking rooms and bars were modeled on hotel style. They went in for imposing copies of old masters, Louis XIV. furniture, Victorian cozy corners and grand staircases.

Nowadays they are more modern than most hotels in their schemes of decoration. The "de la France" when she was launched was the last word in modernity furnishings. The saloons and smoking rooms of a Swedish ship are one of the most modern pieces of public decoration. A new liner, the "Empress of Britain," which will be launched on the Clyde late in May, will display the handwork of several famous artists.

Making New Geological Map

Area North Of Churchill To Be Surveyed This Summer

Dr. Ludlow J. Weeks, of the Geological survey of the Department of Mines will "mush" from Mile 327, temporary end of steel of the Hudson Bay Railway, to Mistake Bay, on the west coast of Hudson Bay. Mistake Bay is some 350 to 400 miles north of Churchill, and Dr. Weeks, assisted by J. F. Kidd, of Vancouver, will carry out the important work of preparing a geological map of the district. Three Eskimos complete the party.

Dr. Weeks has left Ottawa for The Pas, Manitoba, and is due to return to civilization in the late autumn on the "Lady Logan," a staunch little forty-foot craft.

Carloads Of Horses

Animals Being Assembled At Moose Jaw For Spring Work

Under the management of the Saskatchewan Co-operative Live Stock Producers, Limited, the horse marketing section of that organization is undertaking to assemble carloads of horses at the Moose Jaw yards in readiness for spring work. With the aim of improving the condition of these horses they will be fed for a few weeks before offered for sale. This affords buyers an opportunity to visit the yards and select their teams.

There are many gasoline saving devices on the market. A pair of comfortable shoes is the best.

An old temple bell has been restored to Japan by a Swiss museum as a token of loyalty to the League.

Completes Long Air Journey

Bishop Geddes Makes Trip From Akavik To Edmonton

Covering the two thousand miles from Akavik, on the Arctic ocean, to Edmonton, in 17 hours of actual flying time, His Lordship Bishop W. A. Geddes completed a trip March 30 which would have taken ten weeks of ordinary winter travel. In open weather the journey by steamboat would have lasted three weeks.

The bishop, accompanied by Mrs. Geddes, left Akavik in a Commercial Airways aeroplane piloted by Capt. W. R. (Wop) May. It was 35 below zero when the machine left Akavik. This was ordinary winter weather at that point, although a bad storm was experienced the week before.

On over Fort McPherson, Arctic Red River, Fort Good Hope, the machine passed in completing the last air mail trip to the Arctic before the ice breaks up. When Fort Norman was reached for the end of the first day's flying, it was 40 above zero after a heavy rain had fallen.

On the second day, Fort Simpson, Hay River, and Fort Resolution were reached, while the second night was spent at Fort Chipewyan. Pilot May went on to Fort McMurray and Pilot Glyn Roberts called at Chipewyan and picked up Bishop and Mrs. Geddes whom he brought on to Edmonton.

Income Tax Collections

A total of 137,015 persons paid income tax during the fiscal year ended March 31st, 1929, and the sum collected was \$35,422,325, the largest amount yet gathered in by the Federal authorities. In 1928 there were 215,277 taxpayers who paid in \$55,571,961.57.

CHAPTER VIII.—Continued

The girl laughed, handed him "Cato's Diagnosis," and wiped the top of her great-grandfather's desk with the dust cloth, as she replied: "I was merely considering the fact that it may have caused Jim Bennett to use his own brains—instead of his mother's."

The doctor pondered for a moment while Charmian watched him, a smile hovering on her lips.

"I begin to see light in the darkness," he said at last. "Your friend Bennett, I gather, possesses a forceful maternal relative who prefers, let us say, the mail-order variety of goods, to the honest home-made product. She must be mentally unbalanced."

Charmian's smile widened, but she flushed also, a fact that did not escape the watchful eye of her companion.

"You are too clever for an unsophisticated country maid," she said. "You mean 'practical,' don't you?" he retorted, grinning.

She laughed. "I had almost forgotten that terrible appellation, Poor Grandma! How it did trouble her. There! this place would look just right if we had a rug before your desk, and a couple of old brass candlesticks on the mantel. And we must shine up the andirons. An antique dealer from Edmonton wanted to buy them, and Grandma would have consented if I hadn't arrived in the nick of time. She argued that they weren't doing us any good out here, and that the ten dollars the man offered—"

"Ten dollars!" broke in the doctor. "He was a shark!"

"Wasn't he?"—though I had heard work persuading Grandma that I wasn't insane to refuse his offer. If you get the brass polish in the kitchen closet, I'll allow you the pleasure of shining those andirons yourself! These windows need hangings, Doctor. You don't want the filthy public looking in while you stick spoons down your patient's throat, do you? There's some nice old Java cotton in the attic that would be splendid—dark red, and very dignified! I'll get it for you to see."

"But I should pay for the furnishings myself," he objected. "I'm in luck not to be obliged to buy a desk or—"

"Nonsense," said Charmian, who was already at the door. "It's enough to ask you to buy a rug. I couldn't, to save my soul, secure up money enough for the right sort. You can get to work on the andirons while I skip upstairs."

But the andirons were destined to remain unpolished a while longer. As they stepped inside, Grandma's voice sounded from the shop.

"Come here, both of you." Her eyes were twinkling with interest as they obeyed. "I've been pondering for

ten minutes trying to make you hear. There's something you've got to do, Charmian, and no time to lose. Whoever do you think has been here asking for a string of beads? No use trying to guess for you couldn't, not if you tried till Gabriel blows his trumpet. It was Deacon Purdie! Don't that beat the Dutch?"

"But—but what on earth does Deacon Purdie want of a string of beads?" gasped Charmian.

"Possibly," suggested the doctor, "it's a new fashion for deacons, like a Masonic emblem, you understand."

Grandma's lips twitched, while Charmian, at a vision of Deacon Purdie with pale blue beads ornamenting his frock coat as he passed the contribution box, ventured a giggle.

"Don't you see," asserted the old lady, suddenly serious, "that he's making up to Luella Moore, that widow woman with the six children, just like Jim Bennett told me? It's she he wants those beads for, you can mark my words. They're cheap, and taking. I told him we were expecting some this morning. He's coming for them at two o'clock."

Charmian sank into a chair.

"What possessed you to tell such an awful fib?"

"It's not a fib. To be sure, I wasn't expecting 'em till he suggested it, but I am now. I wanted to see how he'd act when he bought 'em."

"But we haven't any beads; and—"

"Yes, we have!" put in Grandma, almost irritably. "It came over me while I was talking—that string of beads Jim Bennett bought for you at the five-and-ten-cent store in Portland, when you were going to be a fortune teller at the church fair. They're somewhere 'round, and you've got to find 'em before two o'clock. It's my opinion that the deacon is going to ask Luella this afternoon, and he'd better have the beads along. They might weigh in the balance when a man goes courting his fifth wife."

"His fifth?" shouted John Carter. "And a church deacon?"

Grandma chuckled.

"You find those beads, Charmian," she commanded, "and don't waste time. They may need to be strung over; and if you could scare up a sort of jewelry box to put 'em in, I think likely Edgar would be more impressed. And see here," she added as the girl arose, "don't you dare let on they came from the five-and-ten. I'm going to make him pay a dollar for them."

"Grandma!" cried Charmian, in a shocked voice; but the doctor laughed.

"Good word!" he said. "A widow woman and six kids ought to be a bargain at a dollar!"

CHAPTER IX.

When Deacon Purdie arrived promptly at two o'clock that afternoon and found Grandma Davis seated placidly in her chair by the window, he little guessed that there were two eavesdroppers in the next room. If Grandma herself was suspicious of the fact, she ignored it, and greeted the deacon with a guileless and deceiving smile. Though a shrewd business man as a rule, he didn't suspect that at this juncture of his fifth venture into matrimony, he had met his equal in a deal.

"Have you got 'em?" he questioned anxiously, as he stood hesitating in the doorway.

"The beads?" asked Grandma innocently. "Sit down, Edgar, and rest yourself a minute. You look as hot as tophet. You've got some new shoes, haven't you? I heard the squeak when you came up the steps. I guess you bought 'em at Earl and Hovey's. My husband used to say that Elias Earl bought squeaky shoes to sort of advertise his business. When he'd go up and down the aisle on Sundays passing the contribution box, folks would hear the squeak and be reminded of what he had to sell. And you're wearing a new tie, too. Aren't you getting a little old for a red necktie, Edgar?"

The deacon cleared his throat, while one large, hairy hand sought the latest extravagance that adorned his neck.

"I like a bright tie, Grandma. Nuthin' like dresin' sort o' snappy on—on occasions. Now those beads—"

"And yet," broke in Grandma heartily, "with poor Sarah—only six months in the grave."

She sighed, and her caller, fidgeting a moment, replied sanctimoniously: "Do you consider it's Christian to mourn when our loved ones have gone to a brighter shore? Man or woman, I don't mean to live alone, Grandma, or—or—well, about those beads." (He glanced uneasily at his big silver watch.) "I got a long ride before me, and—"

"Dear me!" smiled the old lady. "I was forgetting what you came for, Edgar. I hope you won't be disappointed, but only one strand came, though they're pretty. Perhaps I'll be easier for you not to be obliged to make a choice. There!"

Grandma lifted a satin-laced box from the broad window sill and held aloft, before the deacon's dazzled vision, a strand of yellow beads. "Aren't they handsome?"

Deacon Purdie hitched his chair a trifle nearer, and reached for the bauble—removed his long-distance spectacles, and scrutinized the proposed purchase minutely.

"Do they come high?" he questioned after a serious moment.

"That depends on what you expect to do with 'em," replied the old lady briskly. "If you were going to donate 'em to a church fair, why you might hesitate; but if they're a gift to a lady friend, or some dear, loved relative, Edgar, why that's a different matter. They're worth two dollars."

"Two dollars!" he exploded, in genuine consternation. "Did you say two dollars, Grandma Davis, or have my ears deceived me?"

"Your hearing is all right, Edgar, and you can be thankful for it, too. A man of your age. Beads are stylish these days, and the price maybe a little bit inflated." ("Inflated," murmured one of the eavesdroppers in the next room. "Gosh!" "And if—"

The deacon arose dazedly, reaching for his hat.

"It's too much to expect of a man, Grandma," he said regretfully. "I had no idea they come so high. Maybe I could use something I got at home, or—"

"If it's for a present, Edgar," broke in Grandma soberly, "I wouldn't risk any second-hand junk from 'round the house. Now you look here, maybe we'll come to terms."

"I'd give a dollar for 'em," admitted the deacon grudgingly, "though such a waste of money seems almost sinful, and not one cent higher will I go."

Grandma reached for the beads and began arranging them carefully on their satin bed.

"Well, I'm sorry, Edgar." Her tone was definitely final. "But you wouldn't want me to lose money on the transaction, would you?"

"What did they cost you, Grandma?" queried the deacon warily, and sat down again. "I—I might on a pinch give a dollar and a quarter."

Grandma smiled.

(To Be Continued.)

A Graceful Act

Sir Hubert Wilkins To Present "Plane To Father Of Ben Eielson"

Sir Hubert Wilkins stated at Halton, N.D., that he would present Ole Eielson with a plane his son flew during Arctic research with the Australian explorer.

The plane will be a memorial to the father of Wilkins' pilot, Carl Ben Eielson, who lost his life in a flight of mercy in the Arctic, in which he had done so much exploring.

Ole Eielson said he would give the plane to the state or to the Eielson Memorial Association to be placed in a museum.

In some species of the whale the throat is so small that an orange cannot be swallowed.

Constantinople and Angora, Turkey, have just been connected by a telephone line.

True dyes are easiest to use!

Dresses, drapes or lingerie look new when they're re-dyed with Diamond Dyes. No spotting or streaking; never a trace of that red-dyed look. Just rich, even, bright colors that hold amazingly through wear and washing.

Diamond Dyes are the highest quality dyes you can buy because they're so rich in pure anilines. That's what makes them so easy to use. That's what they've been famous for 50 years. 15 cent packages—all drug stores.

Diamond-Dyes

Highest Quality for 50 Years

A Japanese Discovery

Doctor Says Long Eyelashes Are Sign Of Weak Vitality

Long eyelashes are considered to add to the charm of a face. But they are, according to a Japanese physician, a sign of weak vitality. This doctor says that consumptive children have lashes twice as long as those of healthy little ones. While a normal baby's eyelashes grow about an eighth of an inch during its first year, tiny sufferers from infantile diseases have the end of twelve months lashes twice as long. These discoveries were made in a hospital attached to one of the Imperial Universities.

WARNING TO MOTHERS

Watch the Health Of Your Little Ones At All Times

No mother can expect that her child will escape all the ills to which babyhood and childhood are subject, but she can do much to lessen the severity of these troubles. The mother should be constantly on her guard to prevent childhood ailments, or if they come on suddenly as they usually do, to have the means at hand to relieve them. Thousands of mothers have found Baby's Own Tablets the ideal remedy for little ones—thousands of mothers always keep the Tablets in the house as a safeguard against the sudden illness of their little ones.

Baby's Own Tablets are a mild but thorough laxative. They regulate the bowels; sweeten the stomach; thus banish constipation and indigestion; break up colds and simple fever and make the cutting of teeth easy. The Tablets are absolutely free from injurious drugs and may be given to the youngest child with perfect safety. They are sold by medicine dealers or by mail at 25c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Helped A Lot

Two Irishmen were discussing the grave illness of a friend for whom the doctors had given up hope.

Said the first: "Phwat's the matter wid him, anyway?"

"Gargantua," said the other.

Said the first: "The saints be praised for lettin him die wid the right color."

Persian Balm. Cool and refreshing. Soothing and protective. The perfect aid to beauty. Unrivalled in its softening and beautifying effect on the skin. Imparts a fresh and fragrant charm to the loveliest complexion. Banishes roughness caused by weather conditions. Safeguards the skin and keeps it smooth, soft and flawless. Use it for the hands and face. Always resorts in the highest expression of beauty.

A Federal Responsibility

Argument In Favor Of Federal Aid For Transcontinental Highways

The prime minister is partly—and Westerners believe, only partly—right when he tells the House that road building is a provincial responsibility. It could be proved by that bulwark of the Canadian constitution, the British North America Act, that road building is an affair for the provinces, just as the prime minister says. But the draftsmen of the act no more anticipated the coming of the automobile, than they anticipated, say, the entry of women into politics and parliament. "Yet, while the market roads and the byways of travel are provincial responsibilities, surely, if the transcontinental railways are the concern of the Dominion of Canada, why not transcontinental highways, in these days of universal auto travel?"—Calgary.

Seville, Spain, will continue its international exhibition until June 30.

C.N.R. Has Heavy Programme For West

Plans To Spend \$25,000,000 On Maintenance and Construction This Year

The Canadian National Railways will spend \$25,000,000 on new construction, maintenance and general betterment work in Western Canada this year, according to a statement issued today by A. E. Warren, vice-president of the Western Region of the company. This figure is exclusive of the sums which will be spent on the Hudson Bay Railway, and it does not include the Canadian National's share of the budget for the Northern Alberta Railways.

As has already been announced, \$9,000,000 will be used in the branch line building programme. This work constitutes this year's portion of the three year programme approved by the Federal Parliament in 1928, and most of the lines are located in Saskatchewan and Alberta. Two are being built in British Columbia. Altogether 12 branch lines are included in this year's western programme.

The balance of the money will be used on lines in the west now in operation, and on the two hotels which are under construction in Vancouver and Saskatoon. Relaying of steel, track maintenance and improvement, ballasting, track extensions, bridging, fencing, the erection of new buildings, water supplies and railroad facilities generally comprise the bulk of the work for which provision has been made. It is not possible at this time to particularize the various items in the budget since each item requiring a capital outlay has to be sanctioned by parliament before work can be commenced.

It can be said, however, that among other things, the company proposes to replace 370 miles of 80 and 85-pound steel with new 100-pound steel and to relay 109 miles of light track with 80 and 85-pound steel. In the programme for further strengthening track structure the installation of some 2,725,000 tieplates and 680,000 rail anchors is contemplated. Between 2 1/2 and 4 million ties will be replaced; of this number about 15 per cent. will be treated ties. A considerable amount of ballasting is also proposed.

The extension of forty passing tracks on trunk lines is proposed. The increased capacity will permit a more economical use of power. Provision is made for the construction of through sidings at 31 points in addition to existing passing tracks, thereby releasing the passing tracks entirely to train operation and so providing an avenue for further speeding up of passenger and freight train schedules. Twelve leading track extensions are also projected; yard extension, improvement and rearrangement has been provided for at a number of points, the most important of which is, Saskatoon where the extensive terminal changes which were begun last year will be proceeded with.

Together with the branch line programme already mentioned, the proposed work constitutes a heavy programme for the engineering forces. The branch line programme alone calls for the grading of 1759 miles of line; tracklaying on 155 miles; ballasting on 217 miles; the erection of 300 miles of fencing; 240 miles of telegraph line; 20 station buildings; 40 sectionmen's dwellings and 19 water stations including tanks and pumphouses.

The programme on the Hudson Bay Railway, which is being supervised by the engineering department of the Canadian National Railways for the government, is also extensive. Between The Pas and Mile 356, the original portion of the railway, a number of section buildings and employee dwellings have to be built and a certain amount of filling of embankments has to be undertaken.

It is expected that the progress to be made during this year on the various works will be sufficient to complete and equip the Hudson Bay Railway to a point which will permit of commercial business being extended beyond Mile 356 to Churchill. This, however, will depend to a considerable extent upon how early weather conditions will allow work to be resumed.

A Pioneer In Photographic Mapping

Canada was the first country to make practical use of photography in surveying on an extensive scale. Methods of photographic surveying were developed over forty years ago by the late Dr. Deville, Surveyor General, Department of the Interior, and large areas of the Rocky mountains have been so surveyed.

Canada's Lumber Industry Of the \$170,000,000 invested in the lumber industry in Canada, \$56,000,000 is in British Columbia, \$45,000,000 in Ontario, and \$37,000,000 in Quebec.

Minard's Is Best For Grippe.

"After Baby Came I Was Weak, Skinny, Gained 22 lbs."

"After baby was born I was very weak, skinny. Since taking Ironized Yeast I feel fine. Gained 22 lbs."—Mrs. Laura Benoit.

Thousands write me Ironized Yeast adds 5 to 15 lbs. in 3 weeks. Ugly hollows fill out. Bony ribs get graceful roundness. Muddy skin gets clear and rosy like magic. Nervousness, indigestion, constipation vanish overnight. Sound sleep, new pep from very first day.

Two great tonics in one—special weight-building Malt Yeast and strengthening Iron. Pleasant little tablets. Far stronger than unmedicated yeast. Results in half time. No nasty taste, no gas. So get being skinny! Tired, unattractive. Get Ironized Yeast from druggist today. Feel great tomorrow. Money back from manufacturer if not delighted with quick results.

Little Helps For This Week

"It is a good thing to give thanks unto the Lord, and to sing praises unto Thy name, O Most High."—Psalm 92. 1.

Seven whole days, not one in seven. I will praise Thee; In my heart, though not in heaven, I can raise Thee.

Small it is, in this poor sort. To enroll Thee; E'en eternally is too short To extol Thee.

—George Herbert.

I think we are not as thankful as we ought to be; we are lacking in the spirit of praise. We are far too much given to complaining and wallowing, and I do not think these can please our Holy Father. If you are seeking to help another here, are heaping benefits on any one, it is not cheering to listen to a senseless tissue of lamentations. God expects His blessings to be acknowledged, both temporal and spiritual.

—Archer Thompson Gurney.

Your Home Medicine Chest. Among the standard household remedies that should always be on hand in your home medicine chest, none is more important than Dr. Thomas' Electric Oil. Its manifold usefulness in relieving pain and healing sickness is known by many thousands throughout the land. Always used in relieving rheumatic and sciatic pains, treating sore throats and chests, coughs, burns, scalds, cuts, bruises and sprains.

Poille To Foreigners

A movement has been initiated at Dresden, Germany, to have the school children of Saxony taught to be especially polite and helpful to all foreigners. Hotel owners and others interested in the tourist trade are behind the movement.

Minard's Will Stop That Toothache

"Plane For Submarine"

A seaplane with folding wings has been designed that can be borne in a special compartment in a submarine. It will carry a pilot and an observer and, in addition, it has space for a wireless set, seat-type parachutes, and a chart case. Its range is two hours, and it will be a valuable accessory as a scout for a submarine at sea.

Weak After Operation

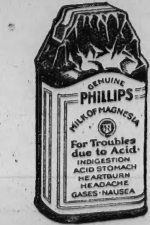

"I was very weak after an operation. My nerves were so bad I would sit down and cry and my husband would not go out and leave me alone. Now my nerves are much better, thanks to a booklet that was left under the door. Lydia E. Pinkham's Vegetable Compound surely put me on my feet. I have taken eight bottles. My friends tell me I look fine. My sister has taken this medicine too."—Mrs. Annie Walden, 67 Stanley St., Kingston, Ontario.

Lydia E. Pinkham's Vegetable Compound

Prepared by Lydia E. Pinkham, Lowell, Mass., U.S.A.

And Sold by Druggists Everywhere

W. N. U. 1833

When Pain Comes

What many people call indigestion very often means excess acid in the stomach. The stomach nerves have been over-stimulated, and food sours. The corrective is an alkali, which neutralizes acids instantly. And the best alkali known to medical science is Phillips' Milk of Magnesia. It has regained the standard with physicians in the 50 years since its invention. One spoonful of this harmless,

tasteless effluvia in water will neutralize instantly many times as much acid, and the symptoms disappear at once. You will never use crude medicines again. You will learn the efficiency of this. Go get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

Mr. and Mrs. W. Cole are spend-
ing the holiday with friends at Was-
hatenuau.

Mr. and Mrs. P. J. Hardy motored
to Bawlf last Sunday to spend the
day with Mr. Hardy's brother.

Mr. Neil McMillan is spending a
couple of weeks with his brother
Mr. McMillan. Mr. McMillan is just
recovering from a short illness.

Mr. E. W. Carter is moving into
Mr. W. T. Barber's house.

The Tennis Court is now ready,
another net having been erected.

Everyone is feeling much more
cheerful owing to the recent show-
ers which were very much needed.

Mrs. Hubman who has been con-
fined to the Hardisty hospital, has
gone to visit her son in Biggar, Sask.,
Miss Heidi Hubman, her daughter, ac-
companied her, returning to Irma
Tuesday.

Ed. Leavens has returned to Irma
after being away about three years,
and will open up a Harness and Shoe
Repair shop in Watkinson's Store on
Main street.

Here and There

After leaving on S.S. Metropo-
litan with his niece, Miss Helen
McKenzie, who is to be married in
London next month, His Honor
R. Randolph Bruce, Lieutenant-
Governor of British Columbia, at-
tended the official opening of the
New Brunswick provincial legisla-
ture. In his trip by Canadian Pa-
cific across the Dominion, Mr.
Bruce called on several Lieutenant-
Governors in Canada.

Captain A. J. Hoskin, R.N., skip-
per of Canadian Pacific liner Em-
press of Russia, was recently win-
ner for the second time in suc-
cession of the E. W. Beatty shield for
safety and efficiency. The shield
was donated in 1928 by the chair-
man and president of the railway
or competition among company
ships of the Pacific fleet.

First week in March witnessed
the addition of Alberta and Sas-
katchewan to the Canadian Pa-
cific Railway's broadcasting chain
which now covers Montreal, Tor-
onto, Winnipeg, Fleming, for Sas-
katchewan and Calgary for Alber-
ta. Slogan of the broadcast is
"Cheerful and Good," and sea
chanties and songs from ballad
operas together with high class
orchestral pieces are put on their
every Friday night between 10 and
11 Eastern time.

In Ottawa electricity for domes-
tic use is cheaper than anywhere
else on the continent, if not in the
world, according to authorities on
the subject. It is sold at a rate
that averages less than one cent
per kilowatt-hour, which means
that the average bill for electric
light incurred by citizens of the
Canadian Capital is about \$1 per
month.

At the World's Poultry Congress
to be held at the Crystal Palace,
London, England, next July, Can-
ada will be a conspicuous partici-
pant. The Canadian exhibit of
live birds will total about 1,000.
The last World's Congress was
held in Ottawa in 1927.

One of the largest real estate
transactions of modern times will
be put through at the present ses-
sion of the Canadian Federal Par-
liament, when legislation will be
submitted to enable the Govern-
ment to hand over millions of acres
of land, a substantial amount of
water power, vast forest wealth
and other natural resources to the
provinces of Manitoba, Alberta
and British Columbia.

The music, songs and dances of
Latin, Celt, Scandinavian, Slav,
Teuton and British will all be re-
presented for Canadians this
month when on March 19-22, the
third Great West Canadian Folk
Dance, Folk Song and Handicrafts
Festival will be held under the
auspices of the Canadian Pacific
Railway at the Palliser Hotel in
Calgary.

Unusually heavy pre-Lenten wed-
dings were indicated this month
from the Windsor street station,
Montreal, when 25 blushing honey-
moons left that city for Ottawa,
Quebec and New York on one
morning. Station officials say
that this is very heavy for the
time of year and comes close to
the number leaving the station on
mornings of Cupid's special month
of June.

Dairying was a profitable indus-
try in the three prairie provinces
of Canada last year when its value
totalled \$27,629,000. In eleven of
the large exhibitions held through-
out Canada during that year these
three provinces were awarded
eighty per cent. of all first prizes
in butter making, and 96 per cent. of all
prizes, over half of which went to
Manitoba.

According to a recent compila-
tion made by the Canadian Govern-
ment Bureau of Statistics, the
average man as a whole, includ-
ing his wife and children, is not
well housed and is not well fed,
and as well as the housing and
food, the average man, his wife and
other family members are not
well clothed. The report is for
the year 1927.

Do You Drive a "Four" or a "Six"

SIX CYLINDER CARS

There are about 800 explo-
sions in each cylinder per min-
ute, at 30 miles per hour in a
"Six". If you drive a "Six",
four hours a day, all week, there
are over 8,000,000 Explosions!

FOUR CYLINDER CARS

There are about 800 explo-
sions in each cylinder per min-
ute in a "four". If you drive
a four about four hours each
day, seven days a week, there
are over 5,000,000 explosions.

The red hot hammering of these millions
of explosions warp the valves, maybe
burn them, and fading motor power can
be traced more often to old-worn-warped-
burned-leaky valves, than to any other
cause.

OUR VALVE AND SEAT RECONDITIONING
WILL RESTORE THIS FADING POWER
THAT SHOULD BE REACHING
YOUR DRIVE-SHAFT.

"Ask About Our Free Valve Inspection"

(506)

From obscurity to world power
is the record of Japan within the
past fifty years, says Dr. Kikawa
Kunio, Tokyo University professor
and chairman of the Japanese Na-
tional Committee on world power
congress, here on a tour of Can-
ada and the United States and a
passenger aboard the Empress of
Asia. He attributed the growth of
his country to her progress in en-
gineering.

The British Bowling team which
has played 16 matches in Los An-
geles in the last two months, los-
ing five and winning eleven of the
games, sailed for England aboard
the Duchess of York recently. They
came out to win the American
Bowling Trophy, but the five
games lost were in that event, and
they must wait next year for an-
other attempt.

Seventeen European races, con-
tributed songs, folklore and handi-
craft work while inhabitants of
Labrador, the Arctic Circle, the
Maritime, the Pacific Coast, and In-
diana furnished their quota to-
wards the brilliant success of the
Great West Folk Dance, Folk
Song and Handicrafts Festival, held
at Calgary, March 19-22. The
Premier of the province, the Lieuten-
ant-Governor and D. C. Coleman,
vice-president Western Lines, and
J. M. Gibbon, General Publicity
Agent, representing the Canadian
Pacific Railway, gave inspirational
addresses in this effort to "broad-
en, stabilize and elevate Canada's
national consciousness."

Recuperation of Europe from
economic ill effects of the war and
the return of European nations to
active and formidable competition
in world's production is making it
more and more essential for Can-
ada and the United States to de-
velop the vast potential markets
of the Orient," said Louis Geun-
ther, publisher of the New York
Financial World, who sailed from
Vancouver recently aboard S.S.
Empress of Asia for a tour of
China and Japan.

Widespread interest aroused in
the United States, as well as Can-
ada, by the musical programmes
broadcast by the Canadian Pacific
Railway on Friday evenings over
its own transcontinental radio net-
work have led to negotiations be-
tween the railway and the National
Broadcasting Company of New
York under which Canadian Pa-
cific will supply WJZ and associated
stations with a series of Canadian
programmes made in Canada by
Canadian talent. Five million re-
ceiving sets owned in a population
of sixty millions will be reached
by this extension which com-
menced first week of April.

Here and There

(461)

The largest passenger liner into
the port of Saint John in 1928 was
the Parisian, of 4,500 tons; now-
days the 20,000-ton Duchess of York
is but one of four "Duchess" ships
using the port, said Hugh A. Allan,
founder of the Allan Line of Steam-
ships, on landing at Saint John re-
cently, and commenting on the
growth of the port. He was certain
it would continue to grow in the fu-
ture as it had done in the past.

There is a huge market in Euro-
pe for breeding silver foxes which
will absorb all that Canada has to
offer for many years, is the view of
J. S. Wedlock, of St. John, passen-
ger on the Duchess of York, who
has been spending some time in
Sweden where he established a fox
farm stocked from his farm on
Prince Edward Island.

Sponsored by Hon. R. Randolph
Bruce, Lieutenant-Governor of British
Columbia, and under direction
of Harold Huxtable Key, musical di-
rector for the Canadian Pacific
Railway, the second annual sea
music festival has just been held
at the Empress Hotel, Victoria,
with great success. Artists of in-
ternational repute took part in the
revival of the sea chanties that
men sang when wooden ships
manned by iron crews sailed the
Seven Seas.

W. R. DEVENISH,
General Superintendent of the Can-
adian National Railways, Edmon-
ton, who has been appointed Gen-
eral Superintendent of the Mani-
toba District, with headquarters in
Winnipeg.
